FUNCTION: CADHERINS ARE CALCIUM DEPENDENT CELL ADHESION PROTE FUNCTION: CADHERINS ARE CALCIUM THEMSELVES IN A HOMOPHILIC THEY PREFERENTIALLY INTERACT WITH THEMSELVES IN A HOMOPHILIC MANNER IN CONNECTING CELLS; CADHERINS MAY THUS CONTRIBUTE TO SORTING OF HETEROGENEOUS CELL TYPES. N-CADHERIN MAY BE INVOLV NEURONAL RECOGNITION MECHANISM.

SUBCELLULAR LOCATION: Type I membrane protein.

SUBCELLULAR LOCATION: Type I membrane protein.

"Diversity of the cadherin family: evidence for eight new cadherins in nervous tissue.";

Cell Regul. 2:261-270(1991).

-1- FUNCTION: CADHERINS ARE CALCIUM DEPENDENT CELL ADHESION PROTEINS.

THEY PREFERENTIALL INTERACT WITH THEMSELVES IN A HOMOPHILIC MANNER IN CONNECTING CELLS; CADHERINS MAY THUS CONTRIBUTE TO THE SORTING OF HETEROGENEOUS CELL TYPES. MAY PLAY AN IMPORTANT ROLE IN RETINAL DEVELOPMENT.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                    Tanihara H., Sano K., Heimark R.L., St John T., Suzuki S.; "Cloning of five human cadherins clarifies characteristic fe cadherin extracellular domain and provides further evidence structurally different types of cadherin."; Cell Adhes. Commun. 2:15-26(1994).

"Structure and distribution of N-cadherin in developing zebrafisl morphogenetic effects of ectopic over-expression.";

Dev. Dyn. 201:121-136(1994).

-i- FUNCTION: CADHERINS ARE CALCIUM DEPENDENT CELL ADHESION PROTI THEY PREFERENTIALLY INTERACT WITH THEMSELVES IN A HOMOPHILIC MANNER IN CONNECTING CELLS; CADHERINS MAY THUS CONTRIBUTE TO SORTING OF HETEROGENEOUS CELL TYPES. N-CADHERIN MAY BE INVOLVED.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         702
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   տ
REURONAL RECOGNITION MEDIANISM.

SUBCELLULAR LOCATION: TYPE I MEMBRANE PROTEIN (BY SIMILARITY).

TISSUE SPECIFICITY: EXPRESSION IN THE EMBRYO IS INITIALLY FOUN
ALL DEEP CELLS BUT LATER BECOMES RESTRICTED TO VARIOUS EPITHEI
AND NEURONAL TISSUES. FOUND IN DISCRETE AREAS OF CELL-CELL
ADHESION WHEN EPIBOLY IS NEARLY COMPLETED. EXPRESSED IN ADULT
BRAIN, EYES AND TRUNK.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             GTKVGNVTAKDPE---GLDISYSLRGDTRGWLKIDHVTGEIFSVAPLDREAGSP-----
